

CALIFORNIA CLOSETS®

Lago Collection

The new Lago collection is defined by imported Italian materials with rich finishes and unique wood grains, as well as exceptional craftsmanship. This combination results in a European-inspired line of color finishes that proudly continues California Closets' tradition of quality and product breadth.

Finishes:

- ***Venetian Wenge*** - sophisticated and contemporary, this lightly textured straight-grain finish is reminiscent of elegant Venetian home interiors.
- ***Milano Grey*** – straight-grain, textured teak in a monochromatic shade reflects the urban modernity of Italy's design capital.
- ***Roman Walnut*** – a classically textured interpretation of European walnut, with dramatic grain patterns.
- ***Umbrian Oak*** – traditionally textured, this straight-grain finish is a classic original.
- ***Florentine Rosewood*** – this richly-hued, straight-grain finish is both strong and discerning, inspired by the artistry of Florentine craftsman.

Green Spaces:

In addition to being the premium line within California Closets' product assortment, the Lago collection provides environmental benefits. Lago is made with E1 wood, which has reduced emissions potential and is processed according to a strict European standard for clean and safe wood manufacturing (BS EN 13986).

California Closets is located in the International Design Center at 10800 Corkscrew Road, Suite 142 in Estero and can be reached by calling (239) 947-4300 or emailing SWoods@calclosets.com.
